

speco
technologies

Ui is partnering with Speco as a turnkey supplier in the rapidly expanding surveillance & security sector. Let us show you the way!

Approved for U.S. gov't facilities; free U.S.-based P2P and DDNS services.

Speco's S.E.A.L. Team (Sales, Engineering and Leadership) will help design any system at NO ADDITIONAL COST.

VIDEO SURVEILLANCE

Mobile surveillance app features live streaming and playback options. See in full color 24 hours a day.

SecureGuard[®]

Increase your monthly revenue by offering subscriptions for remotely managing client locations using the SecureGuard platform.

ACCESS CONTROL

Ultra-secure two-factor authentication pairs facial recognition with access key credential readers.

AUDIO COMMUNICATION

Built-in microphones and speakers for Digital Deterrent[®] alerts or live two-way communication to stop crime before it starts.

Expand your product offering with video and audio recording to the Speco Cloud.
