

# Beale Street Audio

A NEW BRAND FROM  **VANCO**<sup>™</sup>

# Why Beale Street Audio?

- Does the world need another speaker?
  - A different speaker, a different technology
  - Built-in cabinet
- Sonic Vortex
  - Sound Reinvented.
  - Twisted Ported Transmission
  - Provides deep, rich bass

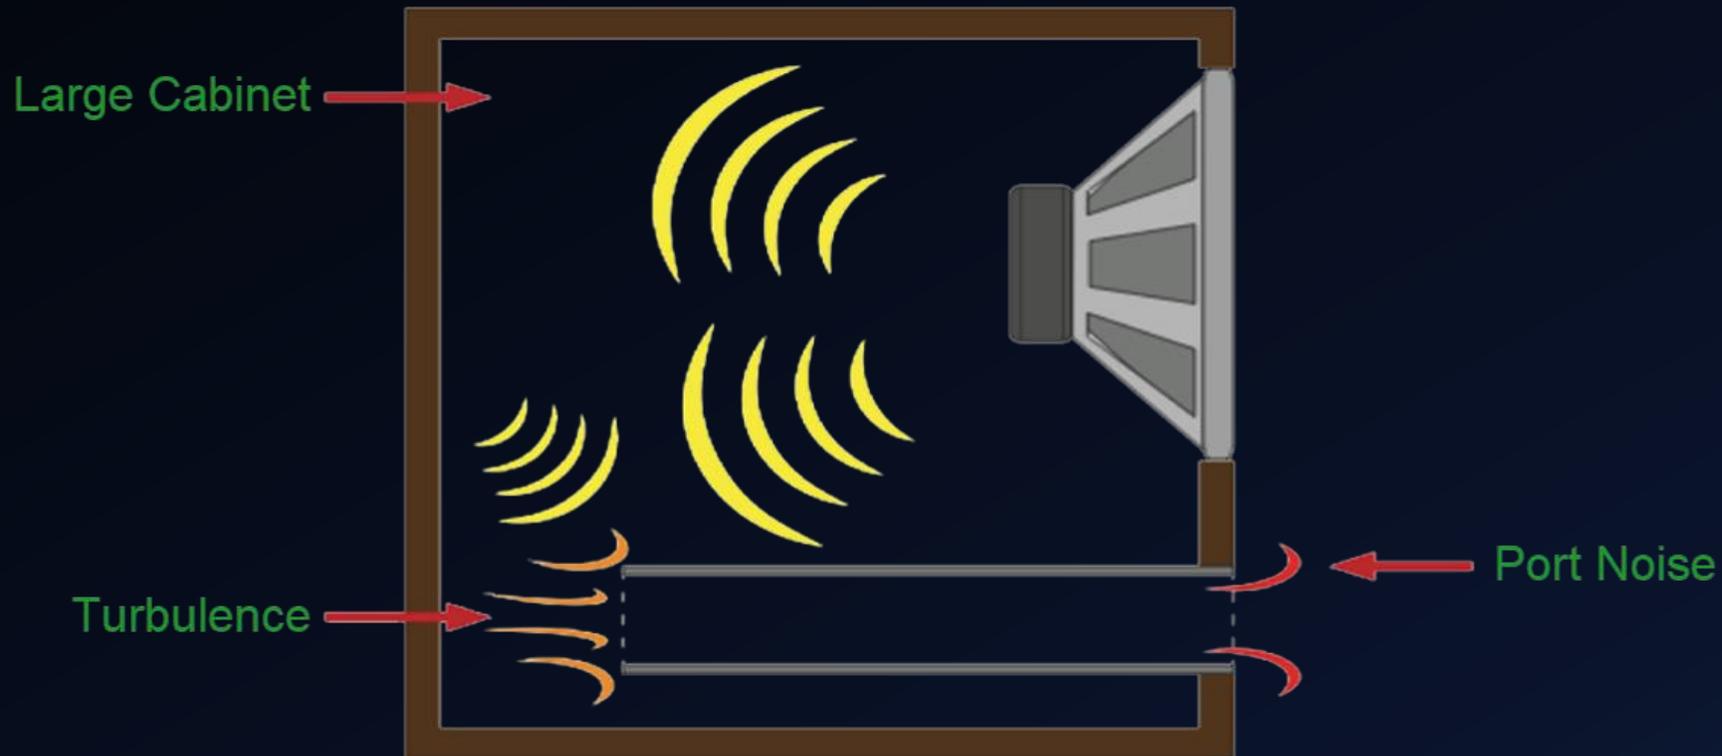

POWERED BY:

**Sonic Vortex**®  
TECHNOLOGY

# Creating Bass

- Ports utilized in speaker cabinets to increase bass
- Bigger cabinet = shorter port
- Smaller cabinet = longer port needed

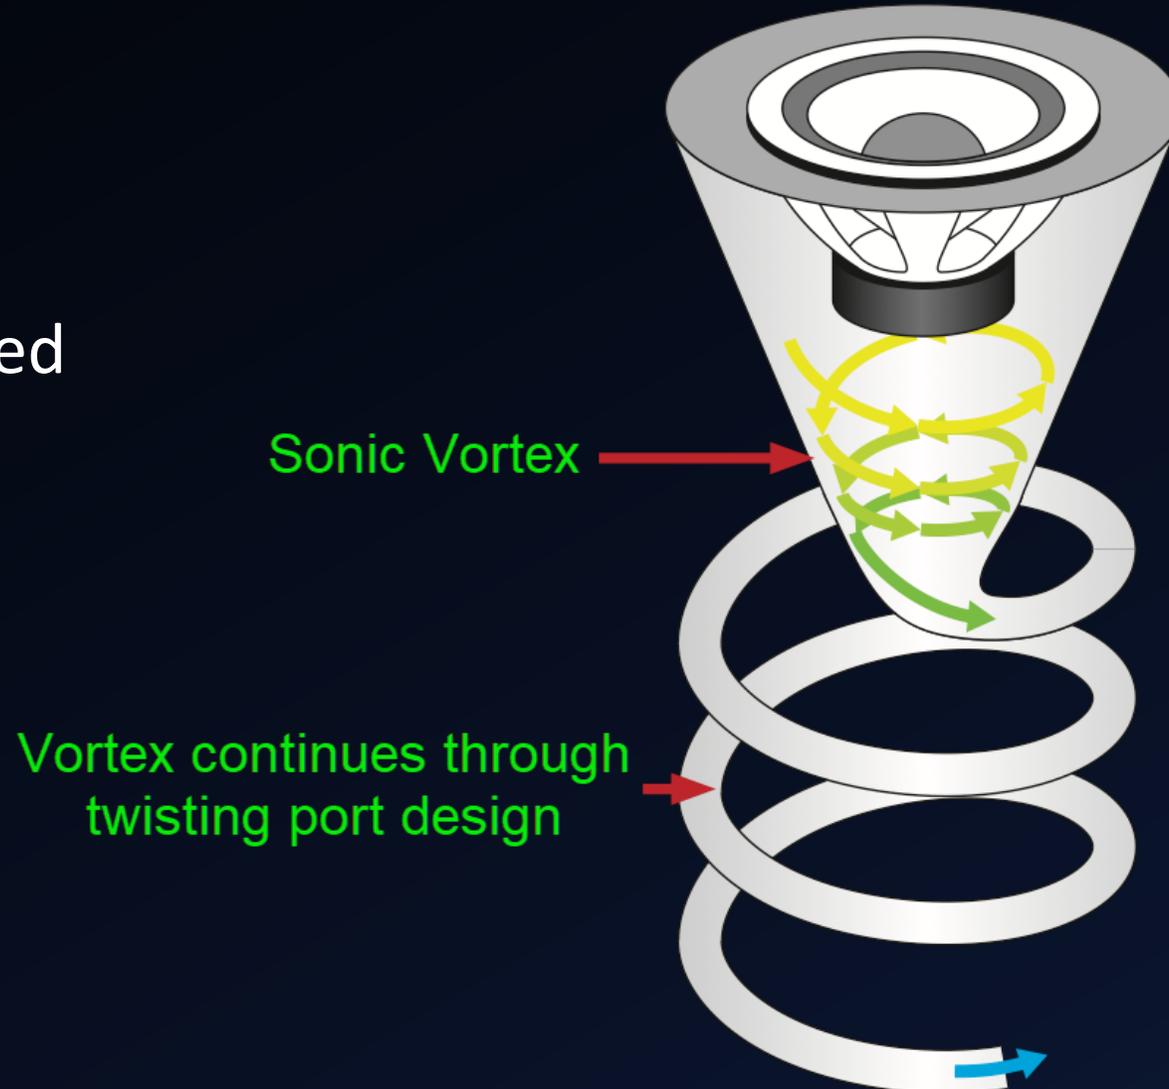

# Creating Bass

- Ports utilized in speaker cabinets to increase bass
- Bigger cabinet = shorter port
- Smaller cabinet = longer port needed

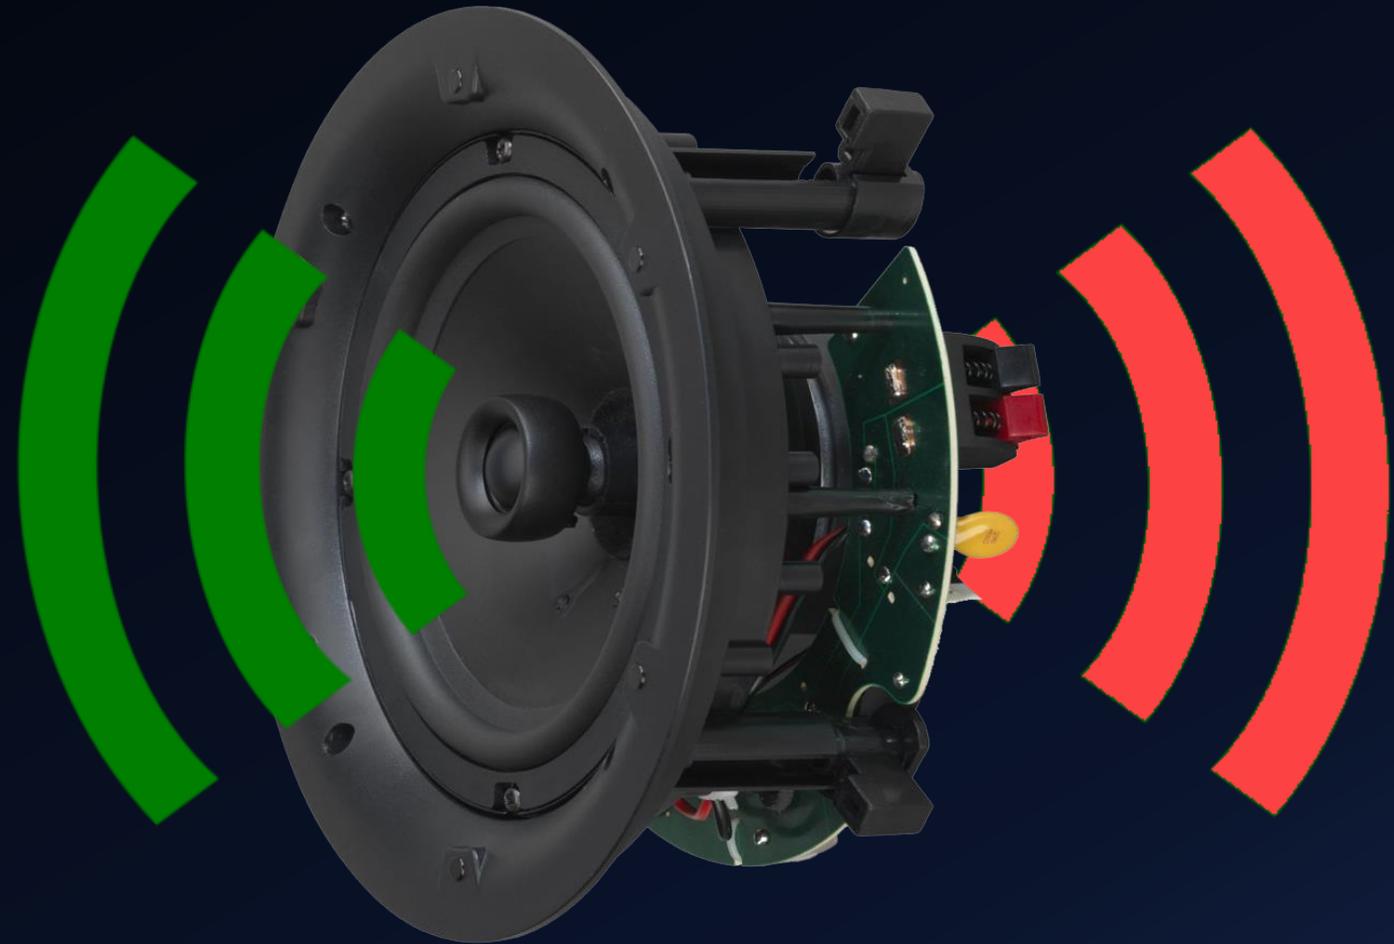

# Sonic Vortex

- Allows for a smaller cabinet
- Long ports compressed by coiling
- 6 ports
- Rapid Airflow
- 160 degree sound dispersion

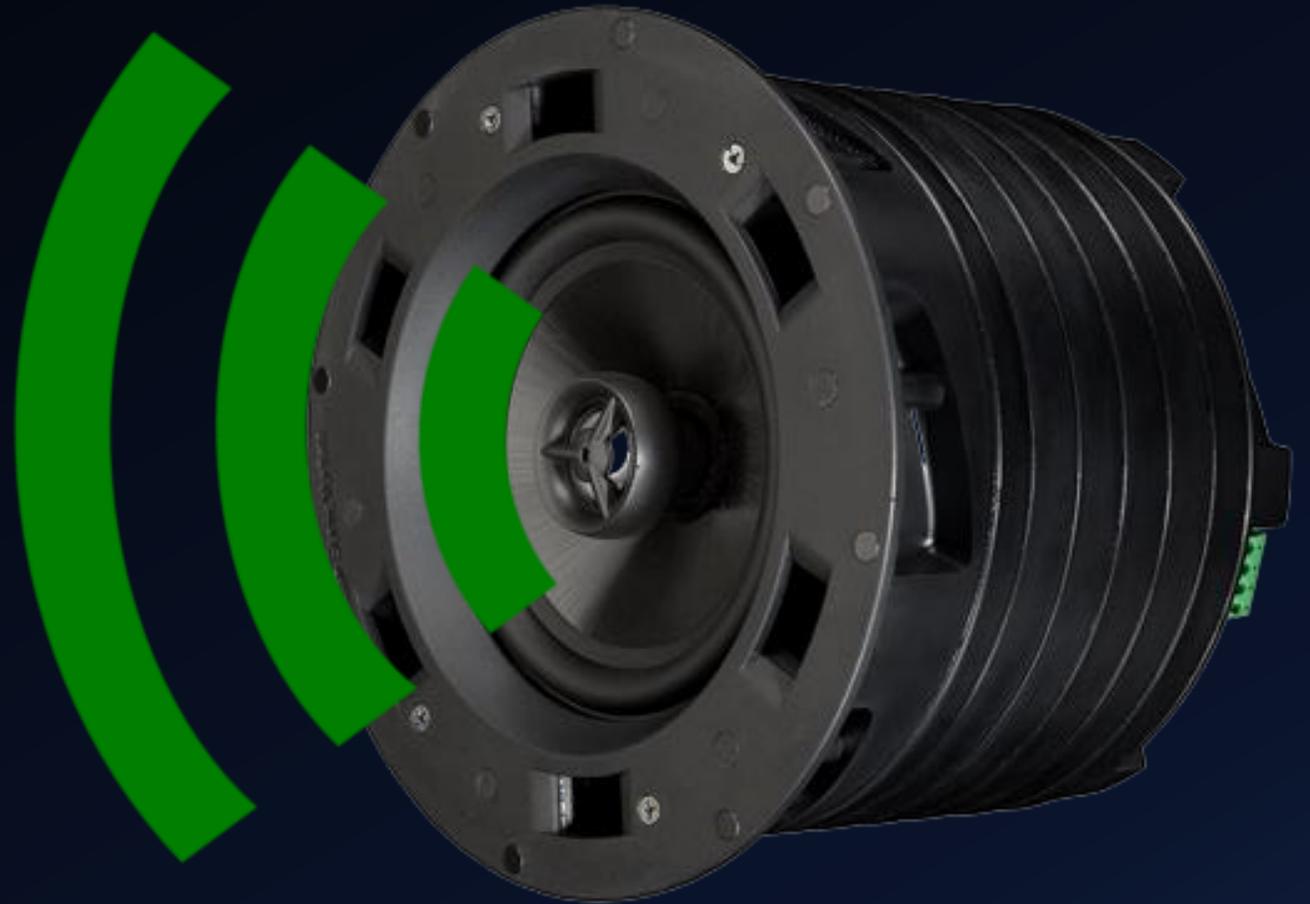

# The Problem with Architectural Speakers

- No backbox
- Different air space in walls and ceilings
- Inconsistent sound
- Sound resonates to other rooms

# Have Sound Go Where It's Intended

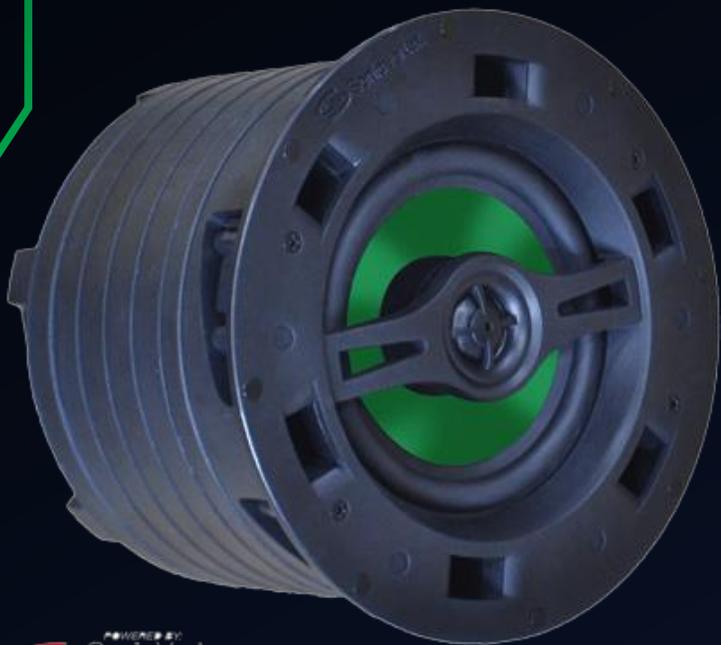

- Bookshelf speaker in the wall or ceiling
- Sound consistency no matter where installed
- No sound radiation

~~Good, Better, and Best~~

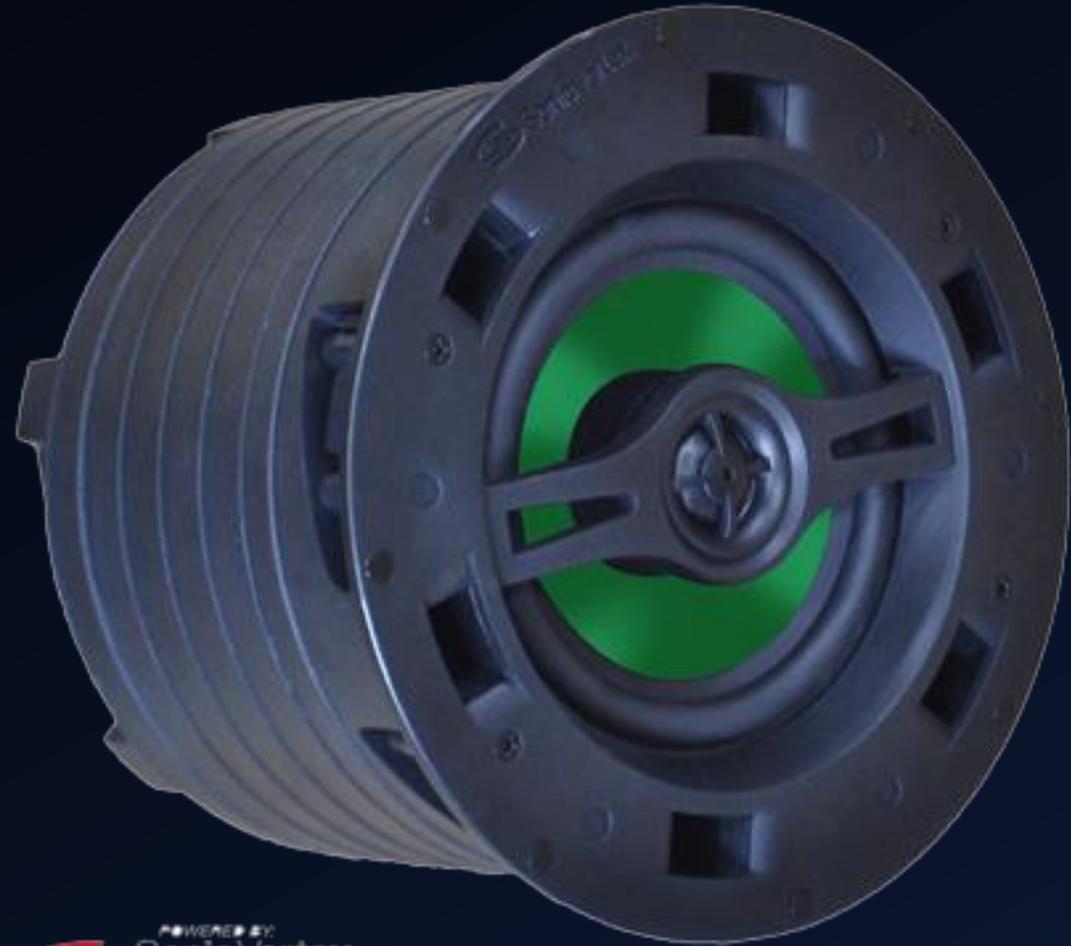

Better, More Better, and Better than their Best

- B = Better
- MB = More Better
- BB = Better than their Best

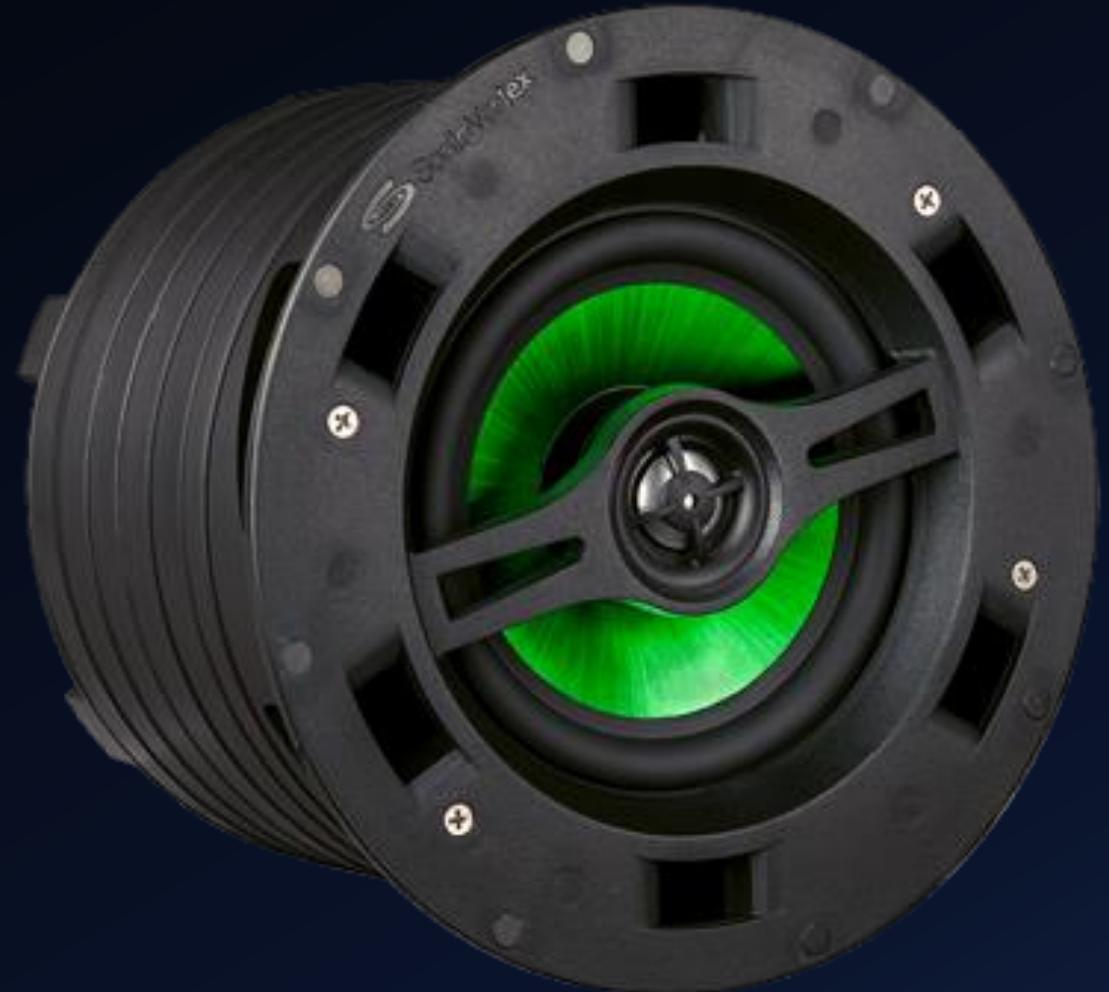

## B = Better

- Smooth sound, great value
- Polypropylene Woofer
- Silk Dome Tweeter
- Available in:
  - In Ceiling 6.5in and 8in
  - Straight and angled
  - Dual Voice Coil

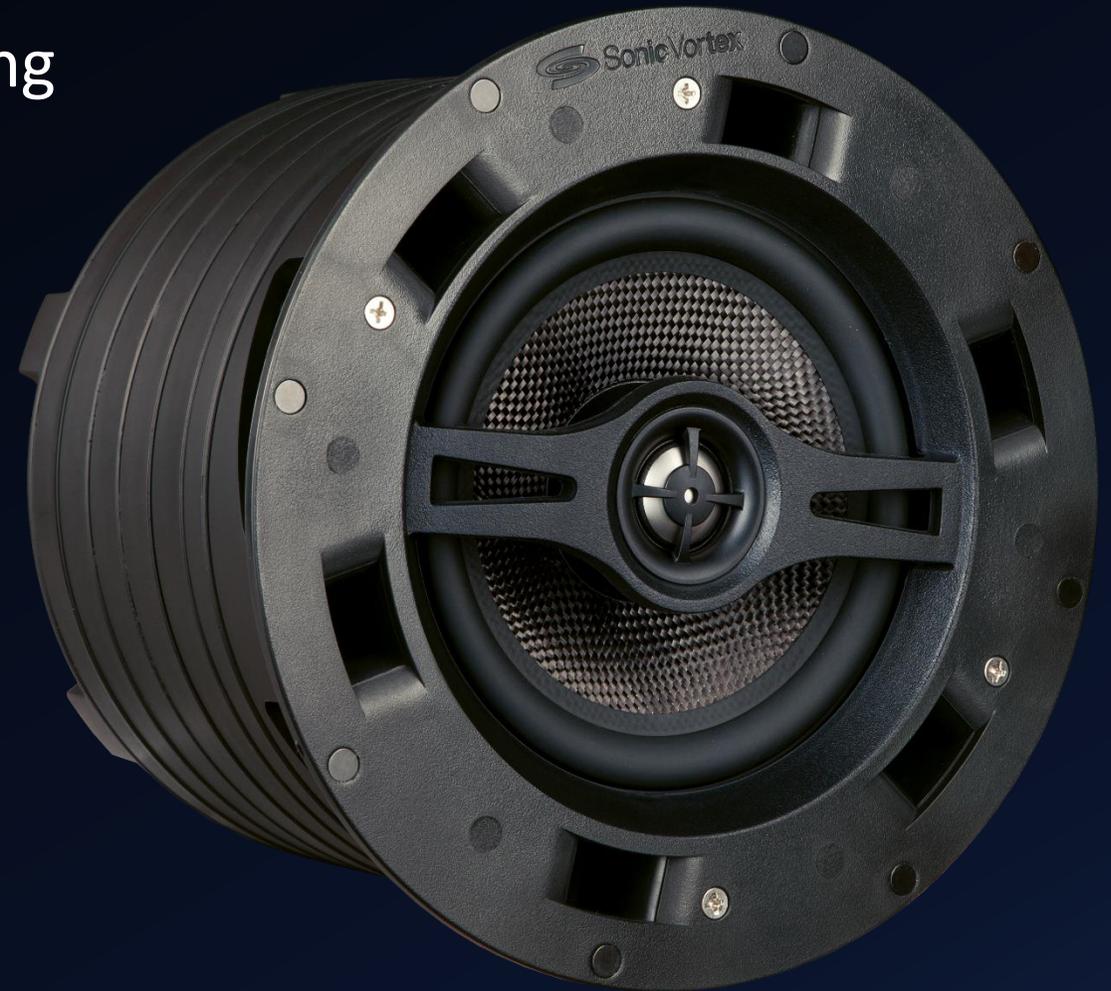

## MB = More Better

- Broader sound, deeper bass
- Fluted Injected Polypropylene Woofer
- Aluminum Tweeter
- Available in:
  - In Ceiling 4in, 6.5in, and 8in

  - Straight and angled

## BB = Better than their Best

- More detail and power handling
- Carbon Fiber Woofer
- Titanium Tweeter
- Available in:
  - In Ceiling 4in, 6.5in, and 8in
  - Pancake and LCR
  - Straight and angled

# Pancake Speakers

- Ultra shallow depth for in wall applications
  - Less than 3in depth
- Available in:
  - LCR (dual 4in) and 4in
  - MB and BB

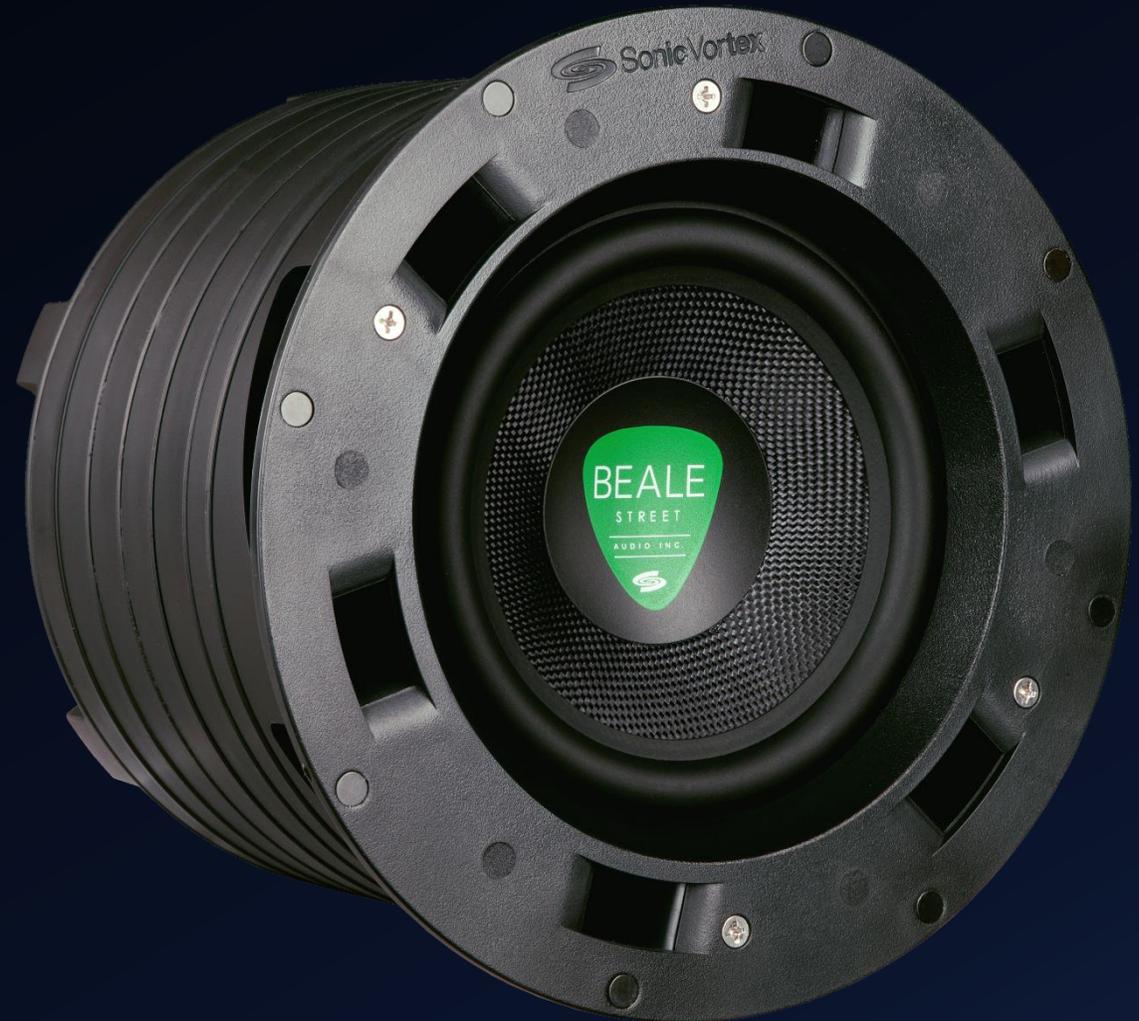

# Dual Voice Coil In Ceiling

- Stereo sound in one speaker
- Unique single tweeter DVC design
- Part # IC6DVC-B

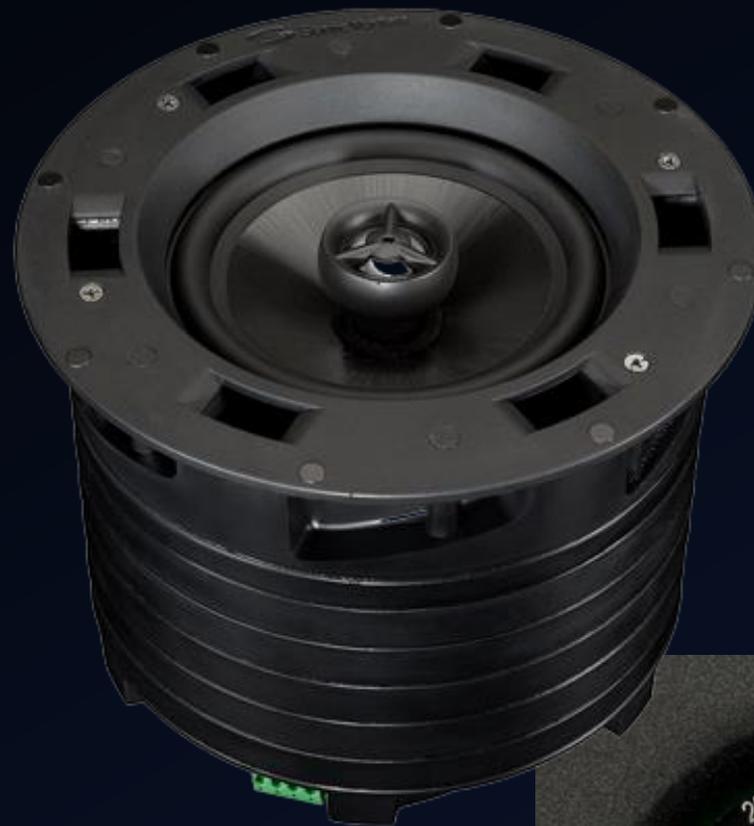

# In Ceiling Subwoofers

- Small footprint, huge bass
- Kevlar Woofer
- Available in:
  - 6.5in (ICS6-MB)
  - 8in (ICS8-MB)

## 70/100V Speakers

- Commercial grade applications
- Fluted Injected Polypropylene Woofer
- Aluminum Tweeter
- 25/70/100 Volt switchable
- Available in:
  - 4in, 6.5in, and 8in
  - Pancake 4in

## BS Series

- Contractor series
- Entry level and Price Point
- Polypropylene Woofer
- Silk Dome Tweeter
- Butyl Rubber Surround
- Bezel-less magnetic grill
- Available in:
  - 6.5in
- Part # BS650

## 2.1ch Amplifier

- 2 x 50 watt
- High efficiency Class D
- Digital and Analog in
- IOS/Android app for control w/  
Bluetooth module
- Sub out
- Part # D2.1

# Bluetooth Programming Module

- Connects to D2.1
- Allows Bluetooth connectivity
- IR receiver
- Allows programming of any IR remote to D2.1
- Part # DBT-TAYLOR

# Subwoofer Amplifier

- 1 x 100 watt
- 4 Ohm stable
- Part # A100

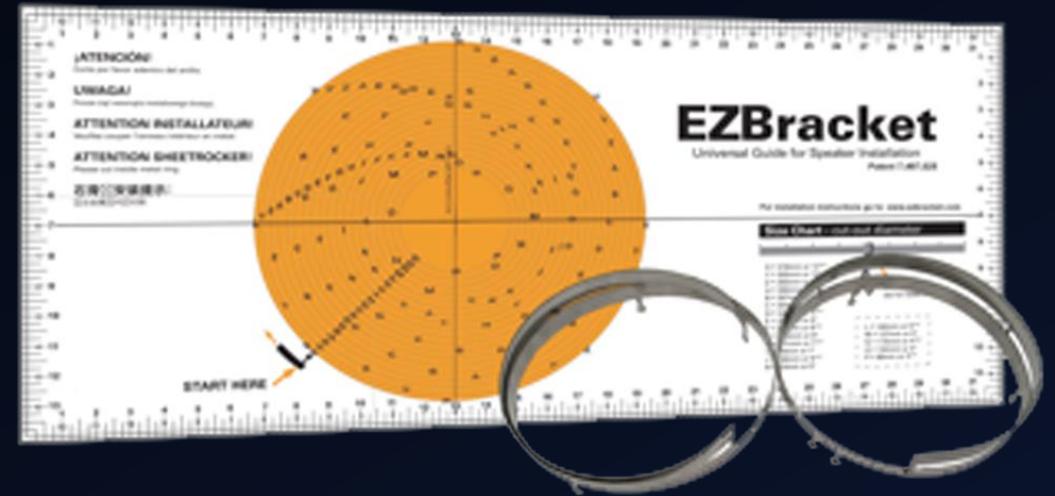

# Volume Controls

- Rotary and Slider
- Impedance matching
- Military grade components
- Peak RMS 350W/ch
- Continuous RMS 105W/ch
- Frequency Response
  - DC to 500kHz +/- 0.1dB
- White and Almond
- Part #s VCRI and VCSI

# EZ Bracket

- One bracket fits all
- Adjustable to speaker size
- Easy to use guide
- No need to carry multiple sizes
- 2 pack or 24 pack
- Part #s EZIC-2 and EZIC-24

The End.
