One Click Fiber Cleaners
1.25mm, 2.5mm, MTP/MPO

Cleerline One-Click Cleaners provide fast, consistent dry cleaning of fiber connector end faces to help prevent insertion loss and reflectance issues caused by dust, oils, and debris. Insert the cleaner into a connector or adapter and press until it “clicks” to advance optical-grade cleaning tape and rotate the tip for a gentle, repeatable clean. Available in 1.25 mm, 2.5 mm, and MTP/MPO versions.

1.25mm One-Click Cleaner

- 1.25 mm One-Click Cleaner (LC) – Cleans 1.25 mm LC connectors on patch cords and in adapters. Insert and push until it “clicks” to advance cleaning tape and rotate the tip for an effective, gentle end-face clean. Up to 800 cleanings.

2.5mm One-Click Cleaner

- 2.5 mm One-Click Cleaner (SC/ST/FC) – Cleans 2.5 mm SC, ST, and FC connectors on patch cords and in adapters. Insert and push to “click” to advance cleaning tape and rotate the tip for a thorough, gentle end-face clean. Up to 800 cleanings.

MTP/MPO One-Click Cleaner

- MTP/MPO One-Click Cleaner – High-performance dry cleaner for MTP/MPO ferrule end-faces on jumper ends and in adapters. Quickly cleans multi-fiber connectors (8/12/24) in one action—no alcohol needed. Up to 500 cleanings.

APPLICATIONS (all models)

- Connector end face cleaning
- Bulkhead connector cleaning
- Network maintenance
- Fiber optic testing
