

Setting up and Connecting to the Cloud

To get all the features and functionality out of EVO-IP such as iOS/Android mobile app control, remote system monitoring and management, and voice control with Alexa enabled devices, it is important to connect the system to the cloud. There are 2 different ways to create, connect, and use a system based on permissions: one as an INSTALLER which gives full access to the system, and one as an END USER which allows for switching, enabling/disabling of video features.

Setting Up and Connecting as an INSTALLER:

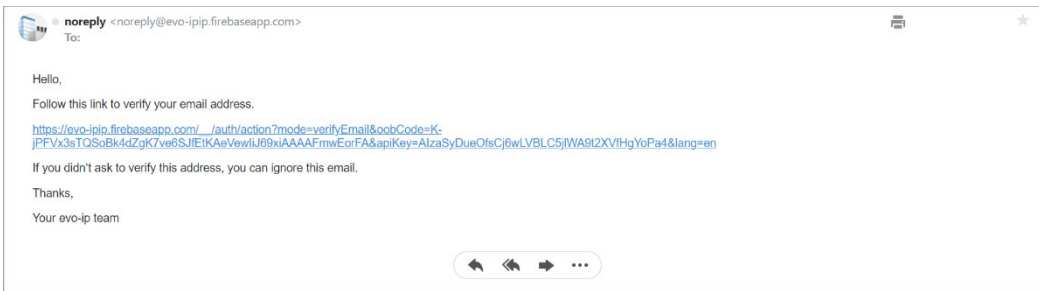

1. Go to: <https://www.evo-ip.io/create/installer>

A screenshot of a web browser window showing the "CREATE NEW INSTALLER" page. The browser's address bar displays "https://www.evo-ip.io/create/installer". The page has a header "Cloud" and a sub-header "CREATE NEW INSTALLER". The form contains three input fields: "Enter an available email as account" with the placeholder "example@gmail...", "Please enter your password" with the placeholder "1234xxx", and "Please enter your password again" with the placeholder "please enter your password again". There are "Clear" and "Apply" buttons at the bottom right of the form.

2. Enter a valid email address and choose a password.

A screenshot of the same "CREATE NEW INSTALLER" page, but with the form fields filled in. The email field contains "vanco.cloud3@yahoo.com", the password field contains "*****", and the confirm password field contains "*****". The "Clear" and "Apply" buttons are still visible at the bottom right.

3. Check your email. Click on the link to verify the email address, and you will be routed back to the evo-ip.io page.

4. Once you return to the evo-ip.io page, you will have to add a device (EVOIPCTL1) to your account. You will need 2 numbers to do so: an installer ID number which is found by clicking on your account name on the top right hand side of the window, and the Association number which is found within the Smart Controller GUI.

A screenshot of a web application dialog box titled "Add new device" with a close button (X) in the top right corner. The dialog contains two input fields. The first is labeled "Installer ID (6 Digits)" and has a placeholder text "Please enter installer ID". The second is labeled "Associate Code (6 Digits)" and has a placeholder text "Please enter associate code". At the bottom right of the dialog, there are two buttons: "Close" and "Apply".

Where to find the Installer ID:

Where to find the Association Code:

NOTE: This is accessing the Control Box locally, not remotely, and not via the cloud.

GO TO: SMART CONTROLLER (EVO-IP GUI) -> CLOUD (Smart Controller GUI)->STATUS-> GET CODE

NOTE: IF THE ASSOCIATION CODE IS NOT SUBMITTED WITHIN 2 MINUTES, A NEW ASSOCIATION CODE WILL BE NEEDED.

5. Enter these into the appropriate fields, click APPLY and you will be routed to the Cloud and Device(s) homepage. Click on your Profile name to change the name of the EVOIPCTL1 for each job, log into different accounts, change passwords or add other devices/jobs.

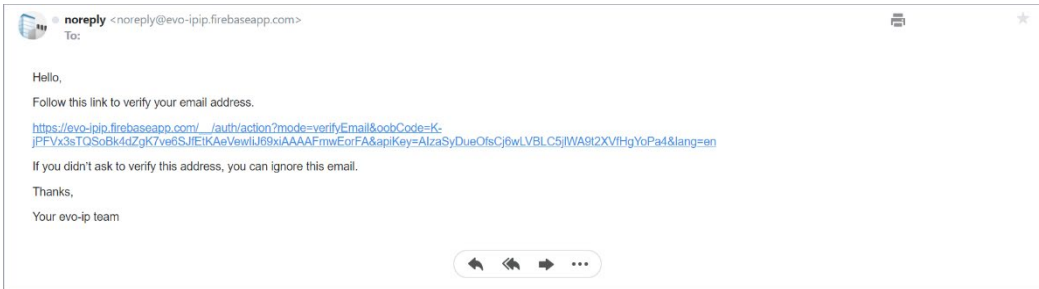

The screenshot shows the V1.21.75v MATRIX interface. At the top, there's a header with 'Cloud', a menu icon, 'NY-DEMO', and 'vanco.cloud1'. A sidebar on the left contains icons for Matrix, Video Wall, OSD, Schedule, Event, Access, Setup, and Log. The main area is titled 'MATRIX' and features a 'SmartControl' dropdown menu with options: Change Name, Profile, Change Password, Add Device, Logout, ID: 514619, and V1.21.75v. Below the title, there are two sections: 'Display(RX)' and 'Source(TX)'. The 'Display(RX)' section shows a 'Preview mode' box with a red arrow icon and a device ID '81 RX_82D95DD111A4'. The 'Source(TX)' section shows two 'Preview mode' boxes. The first box has a green arrow icon, a device ID '81 TX_024EEB77B9DA', and a user icon with '1'. The second box has a green arrow icon, a device ID '82 TX_02E4AF9C565F', and a user icon with '0'. A 'Total: 1' and 'Total: 2' indicator is present next to each section header.

6. You can also click on the device name to view, select, and manage other systems connected through the same cloud account and select a favorite to come up when the screen first opens.

The screenshot shows a device selection screen within the V1.21.75v MATRIX interface. The header is the same as the previous screenshot. The main area displays a large white box with a black icon of a screen with a red heart, a green checkmark, and the text 'NY-DEMO'. To the right of this box, there's a timestamp '0-29 10:37:24' and a menu icon. The sidebar on the left is partially visible, showing the 'Matrix' icon.

Setting Up and Connecting as an END USER:

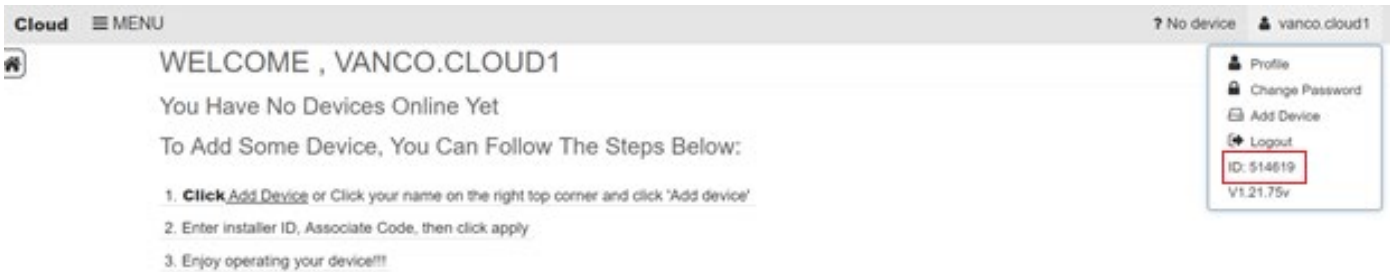

1. Go to: <https://www.evo-ip.io>
2. Click on “Create New Account” and then enter the END USER’s email and set desired password.
3. Confirm the account by going to the email account used to create the cloud account. Click on the link to verify the email address, and you will be routed back to the evo-ip.io page.

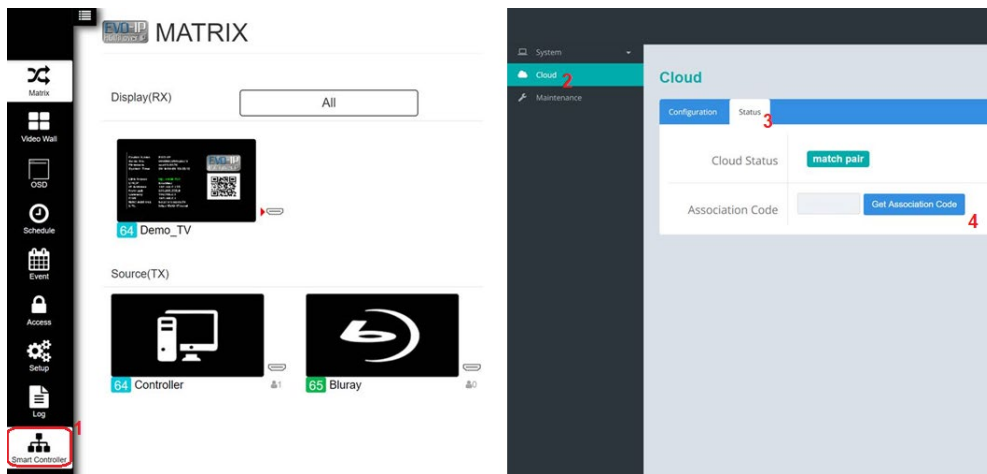

4. Once you return to the evo-ip.io page, to give the END USER access, click on “Add New Device”. Use YOUR Installer ID, and the Association number which is found within the Smart Controller GUI.

A screenshot of a web application dialog box titled "Add new device". It contains two input fields: "Installer ID (6 Digits)" with a placeholder "Please enter installer ID" and "Associate Code (6 Digits)" with a placeholder "Please enter associate code". At the bottom right are "Close" and "Apply" buttons.

NOTE: YOU NEED TO USE THE INSTALLER ID THAT WAS USED AND PROVIDED WHEN CREATING THE INSTALLER ACCOUNT

Where to find the Association Code:

NOTE: This is accessing the Control Box locally, not remotely, and not via the cloud.

GO TO: SMART CONTROLLER (EVO-IP GUI) -> CLOUD (Smart Controller GUI)->STATUS-> GET CODE

NOTE: IF THE ASSOCIATION CODE IS NOT SUBMITTED WITHIN 2 MINUTES, A NEW ASSOCIATION CODE WILL BE NEEDED.

5. Click on the USER profile on the upper right hand corner to change the name of the Controller, change Display Name, set favorite device, change password, and add new device.

Note that END USER only has access to Matrix, Video Wall, OSD, and Schedule modes only.

The screenshot displays the Franks Demo interface in the MATRIX mode. The top navigation bar includes 'Cloud', 'MENU', and the user profile 'franksvanco'. The main content area is divided into two sections: 'Display(RX)' and 'Source(TX)'. The 'Display(RX)' section shows three preview mode cards for 'Bar', 'Lobby', and 'Office'. The 'Source(TX)' section shows two preview mode cards for 'Netflix' and 'Computer'. A user profile dropdown menu is open in the top right corner, showing options like 'Change Name', 'Profile', 'Change Password', 'Add Device', and 'Logout'. The 'Lobby' card in the 'Display(RX)' section is highlighted with a red border.
