## Tensioned Advantage (with Closure Door)

Previously Named: Tensioned Advantage Deluxe Electrol

SUGGESTED SPECIFICATIONS: $\qquad$ projection screen(s) (H) x $\qquad$ (W). The Tensioned Advantage ${ }^{*}$ (with Closure Door) screen shall have two motors, one to operate door and one to operate screen. Door motor electrically operated 120 volt $(60 \mathrm{~Hz})$ not more than 1.2 amp . Shall have motor mounted inside the roller, to be three wire with ground, quick reversal type, oiled for life, with automatic thermal overload cutout, integral gears, capacitor and an electric brake to prevent coasting. To have pre-set but adjustable limit switches to automatically stop fabric door in the "down" position. The door will lift to the closed position where a micro switch shall cut off the electrical current to the door motor. The roller to be of rigid aluminum. Screen motor is electrically operated 120 volt ( 60 Hz ) not more than 2.4 amp . Shall have motor mounted inside the roller, to be three wire with ground quick reversal type, oiled for life, with automatic thermal overload cutout, integral gears, capacitor and an electric brake to prevent coasting. To have pre-set but adjustable limit switches to automatically stop picture surface in the "up" and "down" positions. The roller to be of rigid metal. Screen fabric to be seamless and mildew resistant with black masking borders standard. Each side of the fabric to have tab guide cable system to maintain even lateral tension and hold surface flat. Custom slat bar with added weight maintains
vertical tension on the screen surface. The ends of the slat to be protected by heavy duty plastic caps enclosing a preset adjustable mechanism for screen tensioning. Case shall be a white powder coated extruded aluminum. Bottom of case to be self-trimming with a built-in flange around the bottom of the case. A section of the bottom of the case shall be an aluminum door equipped with hinges so that it opens and closes automatically with the lowering and raising of the picture surface. The balance of the bottom of the case shall be a second hinged aluminum door with manual opening to provide access. Hinges shall be mounted in a concealed way. Junction box shall be internally integrated into the housing making it possible to install the housing and wire to the building's electrical system during construction. The junction box shall contain a quick connector that is mounted in the housing for easy plug-in connection to the motorized fabric and roller assembly. The motorized fabric and roller assembly to be installed in the case at the factory or at a later time at the job site. To be complete with integrated low voltage control unit and three position control switch and cover plate. Suitable for use in environmental air space in accordance with section 300-22 (c) of the National Electric Code, and sections 2-128, 12-010 (3) and 12-100 of the Canadian Electrical Code, part 1, CSA C22.1. Screen to be listed by Underwriters' Laboratories.

*Case length does not include flange.
**Vinyl surfaces include all Parallax Stratos, HD Progressive, Da-Mat ${ }^{\oplus}$, and Da-Tex ${ }^{\oplus}$ surfaces.

## PRODUCT NOTES

- All screens except Parallax Pure are standard with 12" black drop at the top. Screens with Parallax Pure surface standard with 2" of black drop at the top. Extra drop may alter case dimensions. Contact Da-Lite for details.
- Overall case length dimensions $+/-1^{11} 4^{\prime \prime}(6 \mathrm{~mm})$.
- Detail dimensional drawings, wiring diagrams and installation instructions available upon request.
- Specifications subject to change without notice.
- Custom formats and sizes available upon request

## SURFACE INFORMATION

- All viewing surfaces are standard with black backing except HD Progressive ReView 0.9 and Da-Tex.
- Parallax Pure available in sizes up to $58^{\prime \prime} \times 104^{\prime \prime}$ in HDTV format and $571 / 2^{\prime \prime} \times 92$ " in Wide format.
- HD Progressive 1.1 Perf available in sizes up to 87 " $x$ $116 "$ in Video format and 78 " $\times 139$ " in HDTV format.
- All surfaces will be seamless in the image area.
- All HD Progressive, Da-Mat and Da-Tex surfaces are fire retardant.

## PRODUCT NOTES

- All screens except Parallax Pure standard with 12" black drop at the top. Screens with Parallax Pure surface standard with 2" of black drop at the top. Extra drop may alter case dimensions. Contact Da-Lite for details.
- Overall case length dimensions $+/-1 / 4^{\prime \prime}(6 \mathrm{~mm})$.
- Electrical junction box extends $21 / 8^{\prime \prime}(5.4 \mathrm{~cm})$ past case length on left end of case, $11 / 8^{\prime \prime}(2.9 \mathrm{~cm})$ past ceiling flange.
- Internal junction box available. Will add $31 / 2^{\prime \prime}(8.9 \mathrm{~cm})$ to overall case length and must be specified at time of order, recommended for drywall installations.
- Junction box on top of case available. Will add $3 ½^{\prime \prime}(8.9 \mathrm{~cm})$ to overall case length and $17 / 8^{\prime \prime}(4.8 \mathrm{~cm})$ to height at left end of case; must be specified at time of order.
- Detail dimensional drawings, wiring diagrams and installation instructions available upon request.
- Specifications subject to change without notice.
- Custom formats and sizes available upon request.
- All screens come standard with the Silent Drive System.

## SURFACE INFORMATION

- All viewing surfaces are standard with black backing except HD Progressive ReView 0.9 and Da-Tex.
- Parallax Pure available in sizes up to 58 " $\times 104$ " in HDTV format and $571 / 2^{\prime \prime} \times 92$ " in Wide format.
- HD Progressive 1.1 Perf available in sizes up to $87^{\prime \prime} \times 116^{\prime \prime}$ in Video format and 78" $\times 139$ " in HDTV format.
- All surfaces will be seamless in the image area.
- All HD Progressive, Da-Mat and Da-Tex surfaces are fire retardant.

*Case length does not include flange.

## PRODUCT NOTES

- All screens standard with 70" of fully adjustable cable drop. Drop set to 24 " at the factory and adjusted to desired distance during installation.
- Screens with a case length of 120 " or under drop from 3 cables. Screens with a case length over 120" drop from 4 cables.
- Overall case length dimensions $+/-1 / 4^{\prime \prime}(6 \mathrm{~mm})$.
- Electrical junction box extends $21 / 8^{" \prime}(5.4 \mathrm{~cm})$ past case length on left end of case, $11 / 8^{\prime \prime}(2.9 \mathrm{~cm})$ past ceiling flange.
- Internal junction box available. Will add $31 / 2^{\prime \prime}(8.9 \mathrm{~cm})$ to overall case length and must be specified at time of order, recommended for drywall installations.
- Junction box on top of case available. Will add $31 / 2^{\prime \prime}(8.9 \mathrm{~cm})$ to overall case length and $17 / 8^{\prime \prime}(4.8 \mathrm{~cm})$ to height at left end of case; must be specified at time of order.
- Detail dimensional drawings, wiring diagrams and installation instructions available upon request.
- Specifications subject to change without notice.
- Custom formats and sizes available upon request.
- All screens come standard with the Silent Drive System.

## SURFACE INFORMATION

- All viewing surfaces are standard with black backing.
- HD Progressive 1.1 Perf available in sizes that do not exceed 94" in viewable height.
- All surfaces will be seamless in the image area.
- All HD Progressive and Da-Mat surfaces are fire retardant.

## WHEN ORDERING, MARK APPROPRIATE SELECTIONS

1. Select size from charts.
2. Select viewing surface (Da-Lite surfaces are GREENGUARD GOLD Certified except Parallax Stratos):
Parallax Stratos 1.0
HD Progressive 1.3
HD Progressive 0.6
Da-Mat
$\square$ HD Progressive 0.9
$\square$ HD Progressive 1.1
$\square$ HD Progressive 1.1 Perf
$\square$ HD Progressive 1.1 Contrast

## 3. Options:

$\square$ Internal Junction Box (see product $\quad \square 220$ Volt ( 50 Hz ) Motor notes)
$\square$ Junction Box on Top of Case (see product notes)
4. Optional Accessories:
$\square$ Wireless Remote Control for LVC
$\square$ Video Projector Interface
$\square$ Radio Frequency Remote
$\square$ Radio Frequency Range Extender
$\square$ Infrared Remote
$\square$ RS-232 Interface
$\square$ Ethernet Adapter
$\square$ Key Locking Cover Plate for LVC Switch

# Tensioned Advantage ${ }^{\circ}$ (over 14' W with Closure Door) <br> Previously Named: Tensioned Large Advantage Deluxe Electrol 

SUGGESTED SPECIFICATIONS: $\qquad$ projection screen(s),
$\qquad$ (H) $\times$ $\qquad$ (W). The Tensioned Advantage (over $14^{\prime} \mathrm{W}$ with Closure Door) screen shall have two motors, one to operate door and one to operate screen. Door motor electrically operated 120 volt ( 60 Hz ) not more than 1.2 amp . Shall have motor mounted inside the roller, to be three wire with ground, quick reversal type, oiled for life, with automatic thermal overload cutout, integral gears, capacitor and an electric brake to prevent coasting. To have pre-set but adjustable limit switches to automatically stop fabric door in the "down" position. The door will lift to the closed position where a micro switch shall cut off the electrical current to the door motor. The roller to be of 1.6 " diameter aluminum. Screen motor is electrically operated 120 volt $(60 \mathrm{~Hz})$ not more than 2.4 amp . Shall have motor mounted inside the roller, to be three wire with ground quick reversal type, oiled for life, with automatic thermal overload cutout, integral gears, capacitor and an electric brake to prevent coasting. To have pre-set but adjustable limit switches to automatically stop picture surface in the "up" and "down" positions. The fabric roller to be of $41 / 2^{\prime \prime}$ diameter ( $53 / 4$ " if 270 " diagonal, $275^{\prime \prime}$ diagonal, or 298 " diagonal) metal. Screen fabric to be seamless and mildew resistant with black masking borders standard. Each side of the fabric to have tab guide cable system to maintain even lateral tension and hold
surface flat. Custom slat bar with added weight maintains vertical tension on the screen surface. The ends of the slat to be protected by heavy duty plastic caps enclosing a preset adjustable mechanism for screen tensioning. Case shall be a white powder coated extruded aluminum. Bottom of case to be self-trimming with a built-in flange around the bottom of the case. A section of the bottom of the case shall be a retractable aluminum door that opens and closes automatically with the lowering and raising of the picture surface. The balance of the bottom of the case shall be a second hinged aluminum door with manual opening to provide access. Hinges shall be mounted in a concealed way. Junction box shall be internally integrated into the housing making it possible to install the housing and wire to the building's electrical system during construction. The junction box shall contain a quick connector that is mounted in the housing for easy plug-in connection to the motorized fabric and roller assembly. The motorized fabric and roller assembly to be installed in the case at the factory or at a later time at the job site. To be complete with integrated low voltage control unit and three position control switch with cover plate. Suitable for use in environmental air space in accordance with section 300-22 (c) of the National Electric Code, and sections 2-128, 12-010 (3) and 12-100 of the Canadian Electrical Code, part 1, CSA C22.1. Screen to be listed by Underwriters' Laboratories.
